

Product Specification Sheet

Targus 24" Widescreen LCD Monitor Privacy Filter

Part #: ASF24WUSZ

Product Description:

The Targus 24" Widescreen LCD Monitor Privacy Filter is designed to fit a 24" widescreen LCD monitor. To protect your information, tiny vertical blinds on the surface of the screen narrow the viewing angle so data is only visible directly in front of the monitor up to 45 degrees away from the center of the screen. Onlookers will only see a dark unclear screen when attempting to view the information from a side angle. In addition to providing security, the privacy filter also blocks the glare to help reduce eye strain. The Targus Notebook Privacy Filter can be easily attached by using clear adhesive strips designed for LCD screens or with the included tab guides that stick to the edge of the LCD screen to hold the filter in place. Users can position the tabs so the filter easily slides on and off. Highly portable and easy to use, the Targus privacy screen protects valuable information on a laptop and LCD monitor from onlookers.

Product Features and Specifications:

- **Size-** Designed to fit 24" widescreen notebooks
- **Functionality-** Protects valuable information by narrowing the viewing angle; onlookers see only a dark screen instead of sensitive information
- **Easy to install-** Use included adhesive strips to stick the screen to your LCD or use the included tabs that stick to the outside frame of the LCD screen
- **RoHS Compliant-** Yes
